## MAGNETIC CARD ISSUING MACHINE FOR KIOSK

Hotel Door key emulation, Supports Vingcard, Tesa, Onity, Saflock. Jam proof card dispenser with 2 million pass life.

- Motorized magstripe card reader and encoder with a card dispenser designed to be integrated in various self-service applications, where a high level of reliability and durability is required.  
Example: check-in/ check-out kiosk for hotel.
- Provided with the Omron MKW-PCH mechanism and the highly reliable dispenser DE-5220 with a capacity of 200 cards and allowing more than 2 million operations.
- 3-track management in lo-co / hi-co (switchable) modes, in accordance with ISO7811 standards.
- Emulation VINGCARD, TESA, ONITY, US Saflock, binary mode, and ISO Thrift on track 3, allowing compliance with the main manufacturers' magnetic locks for hotel rooms.
- Internal card capture.
- Card acceptance, reading, and encoding. The card can then be returned to the user or captured.
- LED display on the bezel, controlled by software.
- Treatment time per card: 6 seconds.
- Easy reloading hopper, with a simplified cleaning procedure.
- RS232C Serial interface.
- Very compact size, only 14" (350mm) deep.
- Power supply: 100-220 v 50VA. 50-60Hz CEM89 / 366 CSA TUV UL94
- Conforms to International safety standards, CE mark and RoHS.
- Dimensions: W: 178mm (7"01) H: 230mm (9"06) D: 350mm (13"78)
